Peace Signs

Adjusting to life changes and a new learning environment due to the pandemic, students **Jessie**, **Trina**, and **Alex** realize some important lessons about empathy and resilience. With a little help from their science teacher, **Mr. H**, the young peacemakers-in-training discover the impact they can have on others and their community — and that sometimes, big changes we want to see in our world must begin with small changes in ourselves.

Peace Signs is provided **free of charge** to schools and communities throughout Northern California.
